**Octavian Ionici** is an Executive-in-Residence Professor of Finance at American University's Kogod School of Business in Washington, DC. He teaches Financial Modeling, Company Valuation, Real Estate Financial Modeling, and Investment Banking courses at the graduate level. His research interests cover all areas of finance, in particular financial modeling, corporate valuation, and real options. He also specializes in conducting training seminars on using Bloomberg, Thomson Reuters, and @Risk for financial modeling and simulation-based risk analysis. Mr. Ionici combines a unique set of skills and competencies revolving around developing financial models, preparing industry analysis and economic outlooks, conducting in-depth company valuations, and identifying best ways for value creation for his clients.
